

FusionFall Universe: Programmer Application

Thanks for showing interest in volunteering on behalf of our dedicated staff here at FusionFall Universe! We appreciate your interest in joining our programming team. Here is a few things you should know:

1. **FusionFall Universe is a volunteer effort.** We do not get any salary or income for being a staff member.
 2. **Previous infractions count.** If you have any account that has been banned or struck, that may be factored into our consideration of your application.
 3. **FusionFall Legacy primarily is written in C# and C++.** These two languages are a must for development. Extra languages are bonus!
 4. **We enforce professional programming standards.** All of our work is reviewed to keep it clear and understandable. You may need to revise work multiple times before it is accepted.
-

As a Programmer for FusionFall Universe, you will be working to implement new content and systems in FusionFall Legacy and provide technical assistance with the games functions. Being creative is important as you will be contributing to new game mechanics for Legacy.

We are looking for programmers who not only have the understanding, but can approach problems with unique solutions.

Position Requirements:

- Must be at least 13 years old.
- Have a firm understanding of programming concepts
- Has knowledge of C# and C++ programming languages.
- Has knowledge in Unity.
- Has significant time to contribute to communicating and discussing the game along with having time for programming.

Application begins below. You do not need to send your application in PDF format. Copy and paste your answers and send them to developerapp@fusionfalluniverse.com

FusionFall Universe: Programmer Application

About You

- What is your name, or what would you prefer to be called?
- What is your date of birth?
- Is English your first language? What other languages do you know?
- Are you comfortable using voice chat?
- Can you tell us a bit about yourself?
- Have you ever worked in a team environment?
- If so, how would you describe your experience on that team?
- What could you bring to the table as a Programmer?

FusionFall Universe

- Please list your FusionFall Universe Username(s).
- Do you have any previous infractions (warnings, suspensions, terminations, loss of account ability to chat) on any of your accounts? If so, what are they?
- How often do you play and interact on FusionFall Universe?
- Are you an active member of any fan communities or anything outside the game or forums? If so, where can we find you? Direct links would be awesome!

Technical Experience

- Do you have any previous experience with Game Development?
- What programming experience would you consider yourself? Beginner, Intermediate or expert?
- What is your experience with C# or C++?
- Have you ever worked with Unity?
- Are there any other programming languages that you have experience with?
- Are you familiar with any source control? Git or any other source control system?
- Do you have Github or any place we can see your work? We would be glad to see any Programming work!

FusionFall Universe: Programmer Application

Availability

- What timezone are you in?
 - When are you usually available at your computer?
 - How much time can you commit to your position as a Programmer?
